THE EASY WAY TO IMPROVE YOUR, OURS AND THE CLIENT'S IMAGE TO THE PUBLIC

Want free publicity and an opportunity to show the client your good work? In these days of high expectations and social media we need to do more to educate our clients about the work we do.

Follow these simple guidelines:

When you are working at the communities have your staff take a few photos, and email them to: **News@AvalonWeb.com** with the name of the community and a short description of the work.

What we will do:

We will improve the photos and post them on the Association's websites, facebook page, and in some cases include them in the newsletter - giving your company free publicity!

Who in my company can do this?

Tell everyone about it, the site supervisor, technician, your Q&A staff - the more the merrier!
